

"We read about the screening in the paper and it sounded like a good way to get a feel for how we're doing as parents. It's another tool to learn with, as well as a way to confirm that we're doing things right."

"My five year old daughter, Ashley, attended a Bright Futures screening and was referred to and qualified for speech therapy. She was then much better prepared and ready for kindergarten. What a difference this has made in her life! We are so grateful for all the help Bright Futures and others have given to Ashley and to our family. I hope other families gain as much as we have from this wonderful program."
