**FOR IMMEDIATE RELEASE**

## **Sutter County Drive-Through Flu Vaccine Clinic Providing Only Flu Shots**

**Sutter County** – Sutter County Public Health is holding a drive-through influenza (flu) vaccine clinic for Sutter County residents ages 18 and up. Due to delays in shipments of nasal flu vaccine, only injectable flu vaccine will be given at the drive-through clinic.

Flu vaccine remains the single most effective way to prevent the flu and it is very important to get your flu vaccine in addition to washing your hands, covering your cough and staying home when you are sick.

The drive-through flu vaccine clinic is a public health emergency preparedness exercise that helps Sutter County Public Health to test its emergency plans and train its staff. It also offers residents an opportunity to participate and learn about one of the ways that public health prepares to protect the people of our community in the event of an epidemic or other health emergency.

**Saturday, October 24, 2015  
10:00 a.m. to 12:00 p.m.  
Riverbend Elementary School  
301 Stewart Road, Yuba City**

The community drive-through vaccination clinic is for ALL Sutter County residents 18 years of age and up. No appointments necessary. Protect yourself from influenza without leaving your car.

Sutter County Public Health asks the community to be prepared for the drive-through flu vaccine clinic by understanding the following information about the clinic:

- Injectable flu vaccine is available for adults 18 years and older;
- Wear clothing that quickly bares the upper arm near the shoulder in case an injection is needed;
- Vaccine information and the screening and consent forms are available on our website at [www.suttercounty.org/publichealth](http://www.suttercounty.org/publichealth) and may be completed beforehand and brought with you to the drive-through clinic.
- \$5.00 donation accepted.
