Tisdale Boat Ramp Reopened

The Sutter County Public Works Department announced today that Tisdale Boat Ramp at the Tisdale Weir is re-opened on a limited basis, meaning the launch facility and parking lot are open but there is no garbage and bathroom service at this time.

Sutter County Public Works crews cleaned up debris left behind by the swollen Sacramento River, including brush and uprooted trees, to re-open the boat ramp and parking lot. Several trees were quite large.

Spring runoff of an abundant snow supply could cause the Sacramento River to rise and force the closure of the Tisdale Boat ramp again.

Access to Mosquito Beach on the Feather River at Yuba City is also open, the Public Works Department announced.
